

<u>Name of SEDIBUD Key Test Site:</u>	
<u>Basin Boundary Conditions</u>	
Relief (m) (absolute, relative; with reference from the lowest gauging station):	
Glaciation (Y / N):	
Permafrost (Y / N):	
Lithology:	

<u>Slope characteristics</u>	
Slope aspect (orientation):	
Slope form (concave, convex, rock face, talus, cone, ...):	
Mean slope angle (°):	
Processes acting on slopes (rock fall, snow avalanche, debris flow, landslide, creep, solifluction, ...):	Run-out distance (m)
	Deposit volume (m ³)
	Triggering factors (rain, snowmelt, rain-on-snow, earthquakes, ...)
Connection to river, Slope-channel coupling (Y / N):
